RESEARCH

Research covers the main vegetable and flower species. The main objectives are taste, resistance to disease and output.

Vilmorin researchers work both on professional and general public markets.

The result : the Vilmorin range is rich in varieties and specialties to provide as close a match as possible to the desires of the amateur gardener.

A PESQUISA

A linha Vilmorin é rica em obtenções e especialidades para ficar mais próxima dos desejos do jardineiro amador.

Os objectivos prioritários são ao sabor, a resistência às doenças e o rendimento.

O logotipo «BY VILMORIN» coloca a ênfase nas variedades mais gosto com melhor desempenho e resistência às doenças, resultantes da pesquisa agronómica Vilmorin.

LA INVESTIGACIÓN

La gama Vilmorin posee abundantes obtenciones y especialidades para acercarse más a los deseos del jardinero aficionado.

Los principales objetivos de dicha investigación son, el sabor, la resistencia a las enfermedades y el rendimiento.

El logotipo «BY VILMORIN» se centra en las variedades con más gusto, más productivas y resistentes a las enfermedades que resultan de la investigación de Vilmorin.

LA RECHERCHE

La recherche couvre les principales espèces potagères et florales. Les objectifs prioritaires en sont, goût, résistance aux maladies, rendement. Les chercheurs Vilmorin travaillent à la fois sur les marchés professionnels et grand public.

Le résultat : la gamme Vilmorin est riche en obtentions et spécialités pour la plus grande satisfaction des jardiniers amateurs.

Le logo «BY VILMORIN» met l'accent sur les variétés les plus performantes et résistantes aux maladies, issues de la recherche agronomique Vilmorin.
